COMMENT ON THE SITUATION.

A German commerce raider has been working havoc in the Atlantic Ocean since December 12. The South American coast during the period from December 12 to January 10 at least thirteen vessels—ten British steamers, a Japanese steamer and two French sailing craft—were captured by the raider, and it is presumed that most of them were sunk. The British troops in France have hit the German line hard at two places for good gains, according to the latest British communication.

EIGHTY-THREE PLANES "WINGED" LAST MONTH.

Berlin, Jan. 17 (via Bayville).—Sixty-six aeroplanes of the Entente powers were shot down on the various battle fronts in December, according to the German official statement issued today. Twenty-two of these machines are in the possession of the Central Powers. Losses of the central allies in the same period were seventeen machines.

REST ROOMS MIRRORLESS.

Girls Spent All too Much Time in Front of the Glass.

(DIRECT WIRE—EXCLUSIVE DISPATCH.)
BERKELEY, Jan. 17.—"Is my powder on straight?" This has become the salutation of University of California co-eds since the mirrors were removed from the library rest rooms. Henceforth beauty and higher education will travel separate paths. It used to be the custom of the women students to spend six and a half minutes of the seven-minute transition period before the mirrors, and the other half-minute racing to their class. The professors finally decided that late and carefully-primped damsels were not as desirable as prompt and less-carefully-primped ones. Hence the removal of the mirrors.

PEACE AIMS AMPLIFIED

Allies in Harmony with Wilson.

Step Toward a World Federation Taken in Note Penned by Balfour.

Success of the Entente is Held Essential to Prevent the Recurrence of War.

(BY A. P. WIRE.)
WASHINGTON, Jan. 17.—The Entente Allies, in a note addressed by Arthur Balfour, British Foreign Minister, to Ambassador Spring-Rice, and delivered to the State Department today, amplify their replies to President Wilson's peace note, by explaining in detail why they believe it impossible at present to attain a peace which will assure them such guarantees as they consider essential. The note also explains why the Allies demand the expulsion of Turkey from Europe, restoration of Alsace-Lorraine to France, of Italia Irredenta to Italy, and the other territorial changes set forth. Those who think the future peace of the world may be insured by international treaties and international law, the note says, have illustrated the lessons taught by recent history. After charging that German imperialism in Turkey had resulted in conditions as barbarous and more aggressive than were known under Sultan Abdul Hamid, and that it had been shown Germany cannot be expected to respect treaty obligations.

GERMANS CALL PEACE LEAK GREAT SCANDAL.

AMSTERDAM (via London), Jan. 17, 7:35 a.m.—The Leipziger Neueste Nachrichten, commenting on the speculation on the New York Stock Exchange at the time of the issuance of President Wilson's note, under the signature of "The Washington Scandal," says: "What interests us most in the scandal, so characteristic of American adroitness in making dollars out of nothing, is the horrible slaughter of the city since last week and the falling on national institutions and administration. The war shows anew what peace taught us a hundred times—Jupiter Mammón is the real ruler of these States which praise to us stay-at-home Germans their free institutions, and which, as far as they are linked with our enemies, talk to us of their aim to liberate us from militarism and monarchy and offer to bless us with their patented liberties."

TEN BRITISH WARSHIPS SEEKING SEA RAIDERS.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
NORFOLK, Jan. 17.—At least ten British warships are searching for one or more German sea raiders from a point 1000 miles off the Virginia Capes to the coast of Brazil. Warnings sent out by British warships today, indicated that they were then 600 miles south of the Virginia coast, and apparently had clues as to the whereabouts of one of the German vessels.

AUSTRALIANS DEEP IN DEBT.

But Before the War They Didn't Owe Anybody Anything.

(DIRECT WIRE—EXCLUSIVE DISPATCH.)
SAN FRANCISCO BUREAU OF THE TIMES, Jan. 17.—The Commonwealth of Australia, which was free from debt before the war, now owes \$700,000,000, according to F. W. Strick and W. E. Parry of the Commonwealth Bank, the official financial institution of Australia, who arrived here today on the steamer Sonoma en route to England. "Australia is paying her soldiers seven shillings a day," said Strick. "A greater portion of the debt is the result of the wages of the soldiers. A new tax will shortly go into effect which will help reduce the debt." Strick and Parry are the official paymasters for the Australian troops and travel with the soldiers.

Dr. and Mrs. Peter Negulosen of Rumania.

Dr. Negulosen, former professor of law at the University of Bucharest, and high in the confidence of King Ferdinand of Rumania, is on the way to Washington from San Francisco, where he arrived on a Japanese liner. While Negulosen avoided interviewers and declined to discuss his mission, fellow-passengers asserted confidentially that he comes as an emissary from his ruler, seeking President Wilson's intervention in behalf of a separate peace for Rumania and restoration of the invaded territory. When Rumania declared war on the central Allies Dr. Negulosen was taken from the university and put by King Ferdinand at the head of the last court of appeal for any subjects. They declare that Rumania is anxious to retrieve its former status and has no desire to continue the fight.

Baltimore Agents of German Submarine Owners Notified to Expect Vessels Within the Next Two Weeks. Both Left Other Side of Atlantic About Same Time and it is Uncertain Which will Arrive First.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
BALTIMORE, Jan. 17.—Baltimore agents of the German merchant submarine owners have been notified to expect in this country within the next two weeks not only the big new submarine, which reached this country, but another merchant submarine twice as big as the craft in which Capt. Koenig has paid two visits to this country. Paul G. L. Hilken, who is actively handling the American interests of the submarine company, has expressed doubt as to which would be the first to arrive, the new submarine, the name of which in this country do not yet know.

YOUTH ATLANTIC CLEAR OF MERCHANT VESSELS.

Warnings Sent Broadcast to Beware of Two German Cruisers.

(BY ATLANTIC CABLE AND A. P.)
RIO JANEIRO, Jan. 17.—A German raider for the past month has been sinking vessels of the Entente Allied powers in the South Atlantic. Latest reports fix the number at fifteen. Survivors of the destroyed vessels to the number of 237 have been landed at Pernambuco, and the fate of nearly 450 men is still unknown.

The first official statements given out regarding the raider were to the effect that seven vessels had been sunk and nine captured. In a communication to the Minister of Marine the captain of the port of Pernambuco declared that he had learned the raider had also sunk eight of the vessels which were at first reported merely captured. The crews, the fate of which is not known, numbered 441 men.

It is reported that the raider placed these crews on board the British steamer Yarrowdale, which then proceeded for port. It is therefore believed that they will be safely landed within a day or two.

Another report has been received to the effect that the St. Theodore has been transformed into a raider.

The Chamber of Commerce and consulates at Pernambuco are devoting much attention to the care of the shipwrecked crews. There is no confirmation of the alleged loss of 400 lives.

DETAILS OF ENCOUNTERS WITH GERMAN RAIDERS.

(BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.)
RIO JANEIRO (Brazil) Jan. 17.—A Prussian raider has sunk eight British and two French vessels in the Atlantic, according to official announcements, and has captured and employed six others. The damage done is estimated at millions.

The Hudson Maru, a Japanese steamship which had been overhauled and captured by the raider, arrived at Pernambuco with 321 of the crews of the vessels sunk, and with a remarkable story of the operations of the Prussian.

On board the Hudson Maru it was believed that the British steamer the Yarrowdale, had foundered, and that 460 men of the captured crews had lost their lives. This may prove to be true.

The raider, which is the German cruiser Vindex, disguised as a merchantman, but carrying twelve guns and four torpedo tubes, placed the crews of the vessels sunk on board the Hudson Maru and the Yarrowdale. When the Yarrowdale held 460 men, in addition to her own crew, she was started for some port. She should have landed long before the Hudson Maru arrived at Pernambuco. As nothing has been heard of her, it is feared she is in a position to know are certain of this, and they say that Lieut. Eyring, who was on the Deutschland on her two voyages to this country, is now in command of the vessel.

Nothing definite relative to the cargo which is being carried by the German submarine could be learned in Baltimore last night. However, local representatives of the submarine interests have let it be known privately that the cargo will be an exceedingly valuable one; in fact, one of the representatives has mentioned that it will be "at least ten times the value of the second cargo of the Deutschland."

There is just the barest possibility that one of the two boats will come to this port. In the event that the entrance to New London port is too closely watched by Allied patrol, one or both of the boats will cruise about the Atlantic coast seeking the most convenient and the safest way to enter. The Chesapeake Bay is being watched as inviting as it did to Capt. Koenig last July.

MANY LARGE STEAMERS IN SEA RAIDER'S ZONE.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
NEW YORK BUREAU OF THE TIMES, Jan. 17.—More than a score of steamers sailing between New York and South America were reported tonight as being in or approaching the sphere of operations of the German sea raider in the South Atlantic. Several are of American registry and there are three, carrying almost 500 passengers, including many Americans, on the border of the danger zone.

The Lamport and Holt liner Vauhan, flying the British flag, which left New York January 6 with a passenger list of 250 persons, including many Americans, is due to arrive at her first South American port, Bahia, Brazil, next Monday.

The other two passenger steamers are the Saga of the Commercial South American line and the Minas Geraes of the Lord Brasilia. The latter left New York December 20, and is now due at Rio Janeiro. The Saga, according to one of the fastest ships in the South Atlantic trade, was due to arrive today at Barbados for coal. Her owners said that even if she were molested by the raider they thought she was fast enough to escape an attack. The boat flies the Swedish flag.

OTHERS NEAR THE ZONE.

The other steamers in or approaching the danger zone are: Trinidad, 7600 tons, Capt. Fraser, left Trinidad for New York January 13. Flies the British flag and carries Eastern Prince, 2500 tons, Capt.

which rendered possible the calamities from which the world is now suffering. These were the existence of great powers consumed with the lust of domination in the midst of a community of nations ill prepared for defense, plentifully supplied, indeed, with international law, but with no machinery for enforcing them, and weakened by the fact that neither the boundaries of the various states nor their internal constitution harmonized with the aspirations of their constituent races or secured to them just and equal treatment.

SITUATION CHANGED.
The answer to these circumstances have completely changed. It is unnecessary to consider now whether the creation of a reformed Turkey, the maintenance of the Balkan states, the near east was a scheme which, had the Sultan been sincere and the powers united, could have been realized. It certainly cannot be.

GIRLS! TRY IT! HAVE THICK, WAVY BEAUTIFUL HAIR

Every particle of dandruff disappears and hair stops coming out.

Draw a moist cloth through hair and double its beauty at once.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's. "Dandruff" hair cleanser. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Save your hair! Beauty! You will say this was the best 25 cents you ever spent.

GRANDPA DIDN'T NEED CASCARETS FOR THE BOWELS

Two hours a day saving wood will keep liver and bowels right.

You who take exercise in an easy chair must take "Cascarets."

Enjoy life—feel bully! Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath offensive, stomach sour and your body full of cold. Why don't you get a 10 or 15-cent box of Cascarets at the drug store and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Cascarets work while you sleep. You will wake up feeling fit and fine. Children send this candy cathartic, too.

AGED DOCTOR'S ROMANCE ENDS.

Bride Sues Dr. Beach for Separate Support.

Couple had Previously been Granted Divorces.

Wife Says Husband's Eldest Son Caused Discord.

The lone flame in the romance of Dr. George H. Beach, the oldest practicing physician in Los Angeles, has burned out, until only ashes remain. His recent marriage joys have turned to sorrow.

Yesterday Mrs. Maude E. Beach, his bride last October 17, filed papers in the Superior Court through her attorney, H. H. Rorer, asking for separate maintenance at the rate of \$100 a month, in addition to attorney's fees and other money incidentals.

At the time of the wedding in Reno Dr. Beach gave his age as 76. His bride gave her years as 33. Both bride and groom had tasted the fruits of unhappy matrimonial ventures and both were confident of their ability to steer the bark of wedded life far from the shoals and the breakers of discord.

They reckoned without thought of their immediate families. Mrs. Beach had a daughter and son, 12 and 14 years old. Dr. Beach had two sons at home, one 14 and the other 40 years old. The latter, older than his step-mother, has been the cause of the contention, according to Mrs. Beach.

In her affidavit she declares she and her husband lived together just two months and seventeen days and then he left her about January 1 for good. She further sets forth she had been a true and loyal wife, and her aged husband gave no reasons for his departure.

In asking for \$100, she declares the physician has a regular income of approximately \$100 a month from his practice, and in addition to this he owns considerable real estate and other personal property in which she has a right to share. Judge Wood set the date of hearing of the order to show cause why the money should or should not be paid for next Monday.

Dr. Beach started to practice medicine back in the days of the Civil War. He was graduated from the Medical College of New York in 1873 and Dr. William Cullen Bryant handed him his diploma. He practiced for years in New York state, coming to Los Angeles in 1871 to live in retirement. His old friends found him and dragged him back to practice, and he has since then been a resident of this city.

He is now 83 years of age.

Good Samaritan Asks the City Increased Rates.

The Good Samaritan Hospital, which cares for the patients of the public service department—acute and chronic cases—has no objection to the commission's rates for caring for the department's patients.

Since there are a number of patients who are to be moved, the commission has adopted a resolution providing for the payment of the increased rates.

Inquiry at the various hospitals of the city last night, asking if a general increase in hospital rates was contemplated, brought the uniform answer such is not the case.

The prevailing rate for such service as the department receives is \$12.50 per week per bed. No explanation for the increase could be given by the night superintendent of the hospital, other than the rates on certain rooms had been raised.

Butler Makes Changes.

Transfer Several Men in Various Lines of Duty.

Chief of Police Butler continued to make changes in the police department yesterday. Detective J. L. Kirby and Clerk A. G. Haraw have been appointed to duty on the information desk in the detective bureau.

Detective Harvey Davis, who has long been assigned to that station, has been detailed to duty on the street.

Sgt. Walter England, for many years warrant server, has been detailed to Boyle Heights station. Warrants will be served by Patrolman H. G. Dittus. Patrolman Harley Yarnall has been transferred from traffic to central division. Other changes are: Patrolman J. W. Wenzel, University to motorcycle squad; Patrolman L. E. Yarrow, traffic to motorcycle squad; Patrolman J. A. McChick, motorcycle to motorcycle squad; and others.

SOMEONE'S BABY.

Find Little Body in City Dump; Beyond Identification.

The body of a 2-day-old baby was found in the city dump, "Murietta" and Lansing streets, yesterday by two housewives who were examining the refuse to see if they could find anything of value. The infant had been dead for several weeks and because of decomposition was beyond identification.

Detectives notified the Coroner's office and an investigation as to the parentage of the child is under way.

HER GOOD AIM

SCARES THIEF.

Resolute Woman Hurls Flower Pot at Intruder and His Fleece.

Hurling a flower pot at him, Mrs. E. G. Boynton, of No. 6411 McKinley avenue, early yesterday morning put to flight a burglar. She found him in the house upon her arrival and told him to go. He hesitated. The flower pot then came into play and he wasted no more time with the resolute woman.

START I.W.W. BUMS ON TRAMP SOUTHWARD

THE first step toward ridding Los Angeles city and county of I.W.W. bums was taken yesterday morning, when Justice Brown gave seven of the forty who have been in the County Jail since they commandeered freight trains and threatened the lives of the crew, six hours to get out of this vicinity. They promised to go, but to make sure Sheriff Cline took them to the county line in an automobile. They started about toward the Imperial Valley, where there is a large gathering of their kind.

Announcement was made by Deputy District Attorney Lou Guernsey, who has been prosecuting the rowdies, that another seven will be given similar treatment this morning and before the end of the week.

For A Long Life

and a merry one—keep the liver active and the system clean. GENUINE SIGNATURE with CARTER'S LITTLE LIVER PILLS.

Rheumatism an Insidious Disease; Begins With Insignificant Pains.

Real Torture Bound to Follow if the First Warnings are not Heeded.

Anyone afflicted with the pangs of rheumatism will tell you that the first pains were hardly noticeable. Slight at first, in fact too insignificant to be heeded, pains increasing very gradually, the disease had then firmly in its grasp before they realized that they were its victims.

Those who have been trying treatments and other external applications will find that they have not reached the cause of the trouble, and that their rheumatism is back with them again, increasing in severity as the days go by.

Don't overlook the first signs of rheumatism. Prompt treatment is highly important, but the right treatment is the key.

"This great book in such compact form is simply superb!"

India paper makes the new Encyclopaedia Britannica so light in weight that you can easily lift it and move it about—and there are 44,000,000 words, 30,000 pages, 15,000 illustrations and maps in it!

Only a few sets printed on genuine India paper are still unsold. Act at once if you hope to own one of these. They are the last that can be offered printed on this marvelous thin-and-tough paper.

ANYTHING that we might say as to the advantages of the Britannica printed on India paper could not be put stronger and more convincingly than is this paragraph:

By a Big City Merchant

"I bought the Britannica to use. I expect to get out of it in dollars many times more than I paid for it. I know what a wonderful book it is for anyone who uses it. India paper makes it so light, so convenient, so inviting, that one can't fail to read it frequently. You say the Britannica printed on India paper is 'five times more valuable' than on ordinary book paper. I should say 'a hundred times more valuable.' This is based on my own experience."

"I owned a set of the old Britannica on heavy paper, but I didn't read it four times a year. It was too heavy; I never had much inclination to look up anything in those big, bulky books."

"I've had the new Britannica, printed on the delightful India paper, less than six months. I use it constantly, looking up whatever I want to know, sometimes reading as many as four and five articles a night."

This experience is repeated over and over in the case of owners of the new Britannica, for of the 160,000 sets already sold more than 150,000 were India paper sets. The use of this wonderful linenlike paper for printing the world's most interesting and most comprehensive book of knowledge was inspired by the thought that it would increase the handiness of the Britannica—hence, increase its real value to those who possess it.

You, no doubt, know what a remarkable work the Britannica is—an inexhaustible fund of facts and information. Its highest practical value to you or any one else depends, of course, upon its actual, frequent use.

All you desire to know, from the making of bricks to the building of empires, from the life of the bee to the biography of great men, is in the Britannica. But you must read it to acquire this information. And India paper encourages reading.

An India paper set is a standing invitation to read. Each volume is so light in weight, so easy to handle, so delightful to hold, that you naturally turn to the Britannica for the answers to questions or when seeking facts common and uncommon.

You want this marvelous work—the most complete and authoritative that ever came from the printing press, and you ought to have it on genuine India paper. But if you want a set, you must act immediately. There are left but a few thousand sets on this famous paper—these are the last that can be offered. While they last, the sets of the popular "Handy Volume" Issue of the Britannica in stock are offered at the present bargain prices, on the same convenient terms. Your set will be shipped to you immediately on receipt of your order and a first payment of only \$1.

You have the use of the books while you are paying for them, for a limited period, at the rate of \$3, \$3.50, \$4 or \$4.50, according to binding.

Can you afford to let this chance go by? Don't delay—send the coupon at once. This will bring you the illustrated 128-page "Book of 100 Wonders," which gives you evidence of the everyday practical value of the Britannica. Cut out coupon—sign it and mail now.

Sets can be seen and orders left at:

A. HAMBURGER & SONS, Inc. Broadway, Eighth and Hill Sts.

RUSSIAN AND ITALIAN EXCHANGE IN SLUMP.

Activity of German Raiders and Conservative Tone of Stock Trade Authorities Among Other Influences Which Make for Restraint in Wall-street Trading—Limited Bond Dealings are Steady.

[BY A. P. NIGHT WIRE.]
NEW YORK, Jan. 17.—New low for Russian and Italian exchange, which registered the lowest point since the outbreak of the war, was reported today. The reported activities of raiders in South American markets, causing marine insurance to prohibitive rates, and the conservative tone of stock trade authorities, among other influences, make for restraint in Wall-street trading. Limited bond dealings are steady.

Journal School Vaudeville
Show Cancelled.
[LOCAL CORRESPONDENCE.]
PASADENA, Jan. 18.—Censorship, complete and unyielding as that force in the larger cities, holds its sway in the High School and yesterday afternoon well over half of the student body members of the student body met the neutral press for a meeting. The strained diplomatic relations between the faculty and students of the class of '17 arose at the former's action in abolishing the annual school vaudeville.

The students favoring the show argued that they had not been asked to get a hearing in the High School paper which is published and read by the students, and by adults. Several mass meetings, both secret and public, were held to conduct the fight.

To much pep and ginger." This, owing to the belief of a senior, that the faculty's reason for abolishing the vaudeville, which has come to be known as the "High School Show," was the entertainment every year by High School students, was a street corner situation.
